

Shooting Script Activity Worksheet

For each pair of photographs, consider the following questions:

1. Can you tell when these photographs were taken?
2. What do you see in the photograph that indicates the historical period?
3. What elements of these photographs are similar? (lighting, framing or cropping, photographers point of view)? How are they different?
4. Is the lighting natural or staged? Notice how distant the objects of subjects are from the photographer.
5. Is this photograph candid or “staged?” How can you tell?
6. Consider the intended audience. For whom are these photographs being taken? How can you tell?
